

CITY OF VERNON
LIGHT AND POWER DEPARTMENT

Schedule No. LEAP

APPLICABILITY

Applicable to City of Vernon electric customers taking services under GS-2, TOU-G, or TOU-V rate schedules, and who have made process and/or equipment modifications which result in quantifiable reductions in air emissions, and such modification has a minimum net load increase of 200 kW and who has also been approved by the City Council of the City of Vernon to receive service under this schedule.

TERRITORY

Within the city limits of the City of Vernon.

CREDIT

A credit of two dollars and seventy-five cents (\$2.75) per kilowatt-month shall be applied to the monthly electric bill for thirty-six (36) months for each kilowatt of **P** as computed by the formula below:

$$P = d \times A$$

where

d = On-peak diversity factor of the additional equipment.

A = The value in kilowatts of the net incremental load associated with the approved process and/or equipment modification. (Minimum of 200 kW)

SPECIAL CONDITIONS

1. Application Forms: A completed LOW EMISSION ASSISTANCE PROGRAM application form will be required for consideration to receive credit service under the schedule.

Authorized by the City of Vernon

Ordinance No. 940 Effective 12/06/83

Resolution No. 7062 Effective 01/01/98

2. Environmental Impact Assessment: The City of Vernon in its sole judgment, will approve application for the service based on and not limited to the net environmental impact of the proposed process and/or equipment modification and the derived system benefits.
3. Post-Modification Inspection: The City of Vernon will conduct a post process and/or equipment modification inspection, and the service under this schedule will be granted only if it is determined that the modifications are substantially in conformance with the modification plan as set forth in the application form and upon certification by the customer that all required permits to operate have been obtained.
4. Modification Layout Prints: The City may require the customer to furnish electrical layout prints of proposed modification, including copies of the contracts, or may specify other documentation. Customer shall supply all requested information.
5. Permits: Customer must obtain final approval of all required permits including but not limited to the City of Vernon electrical permits.
6. Inspections: The customer shall grant the City access to the project at any time.
7. Timetable: The customer shall have six (6) months from the date of the approval to initiate a modification project, and shall have twelve (12) months from the date of the approval to complete all installation or modification work. Additional time to initiate or complete the project may be granted subject to the City's approval.
8. Periodic Evaluation: The City reserves the right to periodically evaluate the performance of the modification, and adjust the credit accordingly.

Authorized by the City of Vernon

Ordinance No. 940 Effective 12/06/83

Resolution No. 7062 Effective 01/01/98
